Courses may be retaken, if desired or required, but all graduate grades received will affect this average. Cumulative grade averages are calculated at the close of every semester in which course work is taken. This calculation appears on the permanent record of each student. Matters requiring interpretation of a graduate record should normally be referred to the student's advisor or the Graduate School. Undergraduate grades will not be calculated as part of the graduate student's semester or cumulative average.

3. Course Load: The normal full load for a graduate student is 9 hours of graduate level work per semester. Graduate assistants must register for a minimum of 6 hours per semester. The normal full load for a student with a graduate assistantship is 9 semester hours at the graduate level; however, in special circumstances, with the approval of the major professor and the department head, a graduate assistant may be permitted to take 12 hours. Graduate students may earn no more than 6 hours credit in Directed Study and/or Independent Study courses toward the requirements of a degree program.
